SUMMARY

Investment Objective

The Fund strives to increase the value of your investment over the long-term (“long-term growth”).

Fees and Expenses of the Fund

The table below describes the fees and expenses that you may pay if you buy and hold shares of the Fund.

Shareholder Fees

(fees paid directly from your investment)

	Class I
Maximum Sales Charge (Load) Imposed on Purchases	None
Maximum Deferred Sales Charge (Load)	None
Maximum Sales Charge (Load) Imposed on Reinvested Dividends	None
Wire Redemption Fee	\$15.00
Exchange Fee	None

Annual Fund Operating Expenses

(expenses that you pay each year as a percentage of the value of your investment)

Management Fees	0.75%
Distribution (12b-1) Fees	None
Other Expenses	0.10%
Total Annual Fund Operating Expenses	0.85%

Example: This example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds.

	<u>One Year</u>	<u>Three Years</u>	<u>Five Years</u>	<u>Ten Years</u>
The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund’s operating expenses remain the same. Although your actual costs may be higher or lower, based on these assumptions, your costs would be:	\$87	\$271	\$471	\$1,049

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses in the example, affect the Fund’s performance. During the most recent fiscal year, the Fund’s portfolio turnover rate was 12.38% of the average value of the portfolio.

Principal Investment Strategies

To pursue the Fund’s investment objective of long-term growth, it primarily invests in common stocks of domestic corporations with small- and medium-sized market capitalizations believed to have growth potential. The Fund believes a company’s annual sales volume and market capitalization (the number of shares outstanding multiplied by the per share price) are the factors most illustrative of a company’s size. In distinguishing company size in terms of sales volume, the Fund considers a company’s sales volume relative to peer companies in the company’s industry. In terms of market capitalization, the Fund

generally considers companies with market capitalizations up to \$3 billion as “small,” between \$3 billion and \$25 billion as “medium,” and greater than \$25 billion as “large.” To a lesser extent, the Fund may invest in companies with large market capitalizations. The Fund looks for established companies with the potential for superior growth in sales and earnings in a diversified group of industries. The Fund’s investment philosophy is basically a long-term growth philosophy, based upon the assumption that if a company achieves superior growth in sales and earnings, eventually the company’s stock will achieve superior performance. It is anticipated that a major portion of the Fund’s portfolio will be invested in common stocks of the types of companies, and in the manner, as described above.

Principal Risks of Investing

As with any mutual fund, the Fund cannot guarantee that it will achieve its goals or that its performance will be positive over any period of time. The Fund’s investments change in value. Consequently, the value of your Fund shares may change. If the value of the Fund shares or the values of the Fund’s investments go down, you may lose money.

The principal risks of investing in the Fund are:

- **Market Risk** – Market risk involves the possibility that the value of the Fund’s investments will fluctuate as the stock market fluctuates over short- or longer-term periods. Common stock prices tend to be more volatile than other investment choices.
- **Portfolio-Specific Risk** – From time to time, the value of an individual company may decline due to a particular set of circumstances affecting that company, its industry or certain companies within the industry, while having little or no impact on other similar companies within the industry. Because the Fund will invest most of its assets in the securities of small- and mid-cap companies, the Fund may face additional risks. Small- to mid-cap companies often have a limited market for their securities and limited financial resources, and are usually more affected by changes in the economy. Securities of small- to medium capitalization companies also often fluctuate in price more than common stocks of larger capitalization companies.
- **Selection Risk** – The Fund also faces selection risk, which is the risk that the stocks the Fund purchases will underperform markets or other mutual funds with similar investment objectives and strategies.
- **Public Health Threats Risk** – Threats to public health can have a negative impact on the global economy and financial markets, which could adversely affect the securities held by the Fund. Impacts of public health threats may last for an extended period of time and result in a substantial economic downturn. Health crises caused by outbreaks, such as the coronavirus (COVID-19) outbreak, may exacerbate other pre-existing political, social and economic risks and disrupt normal market conditions and operations. The impact of this outbreak, and other epidemics and pandemics that may arise in the future, could negatively affect the worldwide economy, as well as the economies of individual countries, individual companies and the market in general in significant and unforeseen ways. These developments as well as other events could result in further market volatility and negatively affect security prices, the liquidity of certain securities and the normal operations of securities exchanges and other markets. As a result, the risk environment remains elevated. The Adviser will monitor developments and seek to manage the Fund in a manner consistent with achieving the Fund’s investment objective, but there can be no assurance that it will be successful in doing so.
- **Cybersecurity Risk** – The Fund, its service providers, and third party fund distribution platforms, and your ability to transact with the Fund, may be negatively impacted due to operational risks arising from, among other issues, human errors, systems and technology disruptions or failures, or cybersecurity incidents. Cybersecurity incidents may allow an unauthorized party to gain access to fund assets, customer data, or proprietary information, or cause the Fund or its service providers, as well as the securities trading venues and their service providers, to suffer data corruption or lose operational functionality. The occurrence of any of these issues could result in a loss of information, regulatory scrutiny, reputational damage and other consequences, any of

which could have a material adverse effect on the Fund or its shareholders. Cybersecurity incidents could also affect issuers of securities in which the Fund invests, leading to significant loss of value.

Since there are risks inherent in all investments in securities, there is no assurance that the Fund's objective will be achieved.

Performance

The bar chart shown below provides some indication of the risks of investing in the Fund. The chart shows the variability of the Fund's total return for the last ten calendar years. Updated performance information for the Fund is available on our website at www.nicholasfunds.com.

For the ten calendar year periods shown in the above bar chart, the highest quarterly return was 23.47% (for the quarter ended June 30, 2020) and the lowest quarterly return was -22.38% (for the quarter ended March 31, 2020).

This next table shows how the Fund's average annual total returns for the one, five and ten year periods ending on December 31, 2023 (the Fund's most recently completed calendar year), compared to the returns of broad measures of market performance and the performance average of similar mutual funds. The table also shows the average annual total returns for the Fund after taxes on distributions and after taxes on distributions and the redemption of all of your Fund shares. After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an investor's tax situation and may differ from those shown. After-tax returns shown are not relevant to investors who hold their Fund shares through tax-deferred arrangements, such as 401(k) plans or individual retirement accounts.

	<u>One Year</u>	<u>Five Year</u>	<u>Ten Year</u>
Nicholas Limited Edition, Inc.			
Return Before Taxes	17.17%	10.72%	8.56%
Return After Taxes on Distributions	16.52%	8.92%	6.56%
Return After Taxes on Distributions and Sale of Fund Shares	10.64%	8.42%	6.51%
Russell 2000 Growth Index			
(reflects no deduction for fees, expenses or taxes)	18.66%	9.22%	7.16%
Russell 2000 Index			
(reflects no deduction for fees, expenses or taxes)	16.93%	9.97%	7.16%
Morningstar Small-Cap Growth Category			
(reflects no deduction for taxes)	16.68%	10.99%	8.09%

Of course, the Fund's past performance (before and after taxes) is no guarantee of its future returns.

Investment Adviser

Nicholas Company, Inc. serves as the Fund's investment adviser (the "Adviser").

Portfolio Managers

Mr. David O. Nicholas is President, a Director and Lead Portfolio Manager of the Fund and is primarily responsible for the day-to-day management of the Fund's portfolio. Mr. Nicholas has been Portfolio Manager of the Fund since 1993. Mr. Ryan P. Bushman, Senior Vice President of the Fund, has been Co-Portfolio Manager of the Fund since February 2021.

Purchase and Sale of Fund Shares

The minimum initial investment for the Class I shares of the Fund is \$100,000. The minimum subsequent investment is \$100 except for those shareholders participating in an automatic investment plan established with the Fund, the minimum is \$50.

The Fund's shares are redeemable. Generally, shareholders may redeem some or all of their shares without charge by the Fund on any day when the New York Stock Exchange is open by written request, by telephone request by calling 800-544-6547, by accessing your account online at www.nicholasfunds.com or by wire transfer.

Tax Information

Shareholders may receive distributions from the Fund of ordinary income dividends and capital gains, which may be taxable to shareholders.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase the Fund through a broker-dealer or other financial intermediary (such as a bank or financial adviser), the Fund and its related companies may pay that intermediary for the sale of Fund shares and related services. Please bear in mind that these payments may create a conflict of interest by influencing the broker-dealer or other intermediary to recommend the Fund over another investment. Ask your intermediary or visit your intermediary's website for more information.

**INVESTMENT OBJECTIVE, PRINCIPAL INVESTMENT STRATEGIES,
RELATED RISKS AND DISCLOSURE OF PORTFOLIO HOLDINGS**

This section provides a more detailed description of the Fund’s investment objective, its principal investment strategies and related risks. The following questions and answers are designed to help you better understand the Fund’s principal investment strategies and the principal risks of investing in the Fund.

What is the Fund’s primary investment objective?

The primary investment objective of Nicholas Limited Edition, Inc. is to increase the value of your investment over the long-term (“long-term growth”). The Fund’s Board of Directors may change the Fund’s investment objective without shareholder approval, and in such event, the Fund will provide you with advance notice of any change in investment objective. The Fund’s Board of Directors may change the Fund’s investment objective without shareholder approval, and in such event, the Fund will provide you with advance notice of any change in investment objective.

How does the Fund pursue its primary investment objective?

The Fund strives to meet its primary investment objective by investing primarily in a diversified portfolio of equity securities of domestic small- and mid-cap companies, which it believes, have growth potential.

The Fund believes a company’s annual sales volume and market capitalization (the number of shares outstanding multiplied by the per share price) are the factors most illustrative of a company’s size. To determine company size in terms of sales volume, the Fund compares a company’s sales volume to peer companies in the company’s industry. In terms of market capitalization, the Fund uses the following standard:

	<u>Market Capitalization</u>
Small	0 to \$3 Billion
Medium	\$3 Billion to \$25 Billion
Large	Over \$25 Billion

To pursue the Fund’s goal it also may, to a lesser extent, invest in companies with large capitalizations. The Fund’s investment philosophy is basically a long-term growth philosophy, based upon the assumption that if a company achieves superior growth in sales and earnings, eventually the company’s stock will achieve superior performance.

The Fund looks for companies with the potential for superior growth in sales and earnings. The Fund seeks companies that it believes are well positioned to take advantage of emerging, long-term social and economic trends, and have ample financial resources to sustain their growth. The Fund considers a number of factors in assessing a company’s value, including:

- a company’s strategic position in its industry;
- sales and earnings growth;
- attractive operating margins;
- ability to generate positive free cash flow;
- low debt-to-capital;
- product development;
- quality of management;
- overall business prospects; and
- a company’s price-to-earnings ratio (including an analysis of such ratio in relation to the company’s growth rate and industry trends).

There is no minimum percentage of the Fund’s assets which must be invested in the securities of companies in any particular industry or group of industries. In order to be classified as a diversified

investment company, the Fund must meet certain criteria established by the Investment Company Act of 1940, as amended. These regulations currently state that as to 75% of the Fund's assets, at the date of investment, the Fund may not (a) invest more than 5% of the value of such assets in the securities of any one issuer, or (b) invest in more than 10% of the voting securities of any one issuer.

The Fund may hold an investment for any length of time, and may buy or sell securities whenever the Fund observes an appropriate opportunity. The Fund may reduce or sell investments in companies if there is an actual or perceived deterioration in the fundamentals of a company (including the company's financial condition or performance, management-related problems, product-line or service-line issues, or industry problems). The Fund also may reduce or sell investments in companies if a company's market capitalization grows to a point that it is clearly no longer a small- or medium-capitalization stock or if a company's stock price appreciates excessively in relation to its fundamental prospects. Investments in companies also may be sold if they fail to realize their growth potential or if there are other more attractive opportunities elsewhere.

Certain circumstances also may arise in which the Fund takes a temporary defensive position. In the case of a temporary defensive position, which could arise from adverse market, economic, political or other conditions, the Fund may hold up to 100% of its portfolio in cash, cash equivalents or U.S. government securities. During any period in which the Fund maintains such a temporary defensive position, it may not achieve its investment objective.

Percentage limitations generally apply on the date of investment by the Fund to the extent permitted by the Investment Company Act of 1940, as amended. Thus, if an investment satisfies a percentage restriction when it is made, no violation of that restriction is created by changes afterwards in the market value of the investment or total assets of the Fund.

What are the principal risks of investing in Nicholas Limited Edition?

Market Risk. The value of the Fund's investments, and therefore, the value of your Fund shares, may go up or down. Value changes in the Fund's investments and consequently, your Fund shares, may occur because among other things, a particular stock market fluctuates. Stock markets tend to move in cycles, with periods when stock prices generally go up, known as "bull markets," and periods when stock prices generally go down, referred to as "bear markets." Stock prices in general may decline over short or extended periods. Thus, there is a possibility that the value of the Fund's investments will decrease because of declines in the stock market, regardless of the success or failure of the operations of the Fund's portfolio companies. At other times, there are specific factors that may adversely affect the value of a particular investment of the Fund, which in turn may reduce the value of the Fund's investments, and consequently, your Fund shares.

Portfolio-Specific Risk. From time to time, the value of an individual company may decline due to a particular set of circumstances affecting that company, its industry or certain companies within the industry, while having little or no impact on similar companies within the industry. Because the Fund invests most of its assets in the securities of small- and mid-cap companies, the Fund may be subject to additional risks. Small- to mid-cap companies often have a limited market for their securities and limited financial resources, and are usually more affected by changes in the economy. Securities of small- to medium capitalization companies also often fluctuate in price more than common stocks of larger capitalization companies. If the values of the Fund's investments in small- to mid-cap companies decreases, the value of the Fund's shares also may go down.

Selection Risk. The Fund also is subject to selection risk, which is the risk that the stocks the Fund buys will underperform the markets or other mutual funds with similar investment objectives and strategies.

Public Health Threats Risk. Threats to public health can have a negative impact on the global economy and financial markets, which could adversely affect the securities held by the Fund. Impacts of public health threats may last for an extended period of time and result in a substantial economic downturn. Health crises caused by outbreaks, such as the coronavirus (COVID-19) outbreak, may exacerbate other pre-existing political, social and economic risks and disrupt normal market conditions and operations. The impact of this outbreak, and other epidemics and pandemics that may arise in the

future, could negatively affect the worldwide economy, as well as the economies of individual countries, individual companies and the market in general in significant and unforeseen ways.

These developments as well as other events could result in further market volatility and negatively affect security prices, the liquidity of certain securities and the normal operations of securities exchanges and other markets. As a result, the risk environment remains elevated. The Adviser will monitor developments and seek to manage the Fund in a manner consistent with achieving the Fund's investment objective, but there can be no assurance that it will be successful in doing so.

Cybersecurity Risk. The Fund, its service providers, and third party fund distribution platforms, and your ability to transact with the Fund, may be negatively impacted due to operational risks arising from, among other issues, human errors, systems and technology disruptions or failures, or cybersecurity incidents. Cybersecurity incidents may allow an unauthorized party to gain access to fund assets, customer data, or proprietary information, or cause the Fund or its service providers, as well as the securities trading venues and their service providers, to suffer data corruption or lose operational functionality. The occurrence of any of these issues could result in a loss of information, regulatory scrutiny, reputational damage and other consequences, any of which could have a material adverse effect on the Fund or its shareholders. Cybersecurity incidents could also affect issuers of securities in which the Fund invests, leading to significant loss of value.

Risks Related to Certain Other Portfolio Investments and Strategies. The Fund may use other investment strategies. These strategies and the associated non-principal risks are described in further detail in the Fund's Statement of Additional Information ("SAI"), which is incorporated by reference herein.

Disclosure of Portfolio Holdings. A description of the Fund's policies and procedures with respect to the disclosure of the Fund's portfolio securities is available in the Fund's SAI. There can be no assurance that the Fund's policies with respect to information about its portfolio securities will be effective or protect the Fund from the potential misuse of holdings by individuals or firms in possession of that information. The Fund's complete portfolio holdings are made available to the public on a quarterly basis generally no later than 60 days after the end of each calendar quarter end. A summary of the Fund's portfolio composition is also posted to the Fund's website at www.nicholasfunds.com under the heading "Quarterly Factsheet" generally 10 days or more following a calendar quarter end. This summary composition may include the Fund's top ten holdings and a breakdown by sector.

The Fund may use many different investment strategies in seeking its investment objective, and it has certain investment restrictions. These strategies and certain of the restrictions and policies governing the Fund's investments are explained in detail in the Fund's SAI, which is incorporated by reference herein. If you would like to learn more about how the Fund may invest and the Fund's policies and procedures with respect to the disclosure of the Fund's portfolio securities, you should request a copy of the SAI. To learn how to obtain a copy, see the back cover page of this Prospectus.

As with any mutual fund, there can be no guarantee that the Fund will achieve its goals or that you will not lose money on your investment. There is no guarantee that the Fund's performance will be positive over any period of time. In view of the risks inherent in all investments in securities, there is no assurance that the Fund's objective will be achieved.

FINANCIAL HIGHLIGHTS

The financial highlights table is intended to help you understand the Fund's Class I financial performance for the past five years ended December 31, 2023. Certain information reflects financial results for a single Class I share. The total returns in the table represent the rate that an investor would have earned (or lost) on an investment in Class I (assuming reinvestment of all dividends and distributions). The information has been derived from the Fund's financial statements which have been audited by Deloitte & Touche LLP, Independent Registered Public Accounting Firm, whose report, along with the Fund's financial statements, financial highlights, and related notes, are incorporated by reference in the SAI and included in the Fund's Annual Report, which may be obtained without charge by calling or writing the Fund.

Please consider the performance information above in light of the Fund's investment objectives and policies, and market conditions during the reported time periods. Again, you must remember that historical performance does not necessarily indicate what will happen in the future. The value of your Fund shares may go up and down.

THE FUND'S INVESTMENT ADVISER

Nicholas Company, Inc., located at 411 East Wisconsin Avenue, Milwaukee, Wisconsin 53202, is the Fund's investment adviser. The Adviser furnishes the Fund with continuous investment service and is responsible for overall management of the Fund's business affairs, subject to supervision by the Fund's Board of Directors.

The Adviser is the investment adviser to three other mutual funds and to numerous institutions and individuals with substantial investment portfolios. The additional mutual funds it advises are: Nicholas Fund, Inc., Nicholas II, Inc. and Nicholas Equity Income Fund, Inc. As of December 31, 2023, the Adviser had approximately \$5.9 billion in assets under management.

The annual fee paid to the Adviser is paid monthly and is based on the average net asset value of the Fund, as determined by the valuations made at the close of each business day of the month. The annual fee is three-fourths of one percent (0.75 of 1%) of the average net asset value of the Fund. For the fiscal year ended December 31, 2023, the aggregate fee paid to the Adviser was 0.75%. A discussion regarding the basis for the Board of Directors approval of the Fund's Investment Advisory Agreement can be found in the Fund's Annual Report to Shareholders for the period ended December 31.

Under an Investment Advisory Agreement with the Fund, the Adviser, at its own expense and without reimbursement from the Fund, furnishes the Fund with office space, office facilities, executive officers and executive expenses (such as health insurance premiums for executive officers). The Adviser also pays all sales and promotional expenses of the Fund, other than expenses incurred in complying with laws regulating the issue or sale of securities.

The Fund pays all of its operating expenses. Operating expenses include, but are not limited to, fees paid for attendance at Board meetings to directors who are not interested persons of the Adviser or officers or employees of the Fund, salaries of administrative and clerical personnel, association membership dues, auditing and accounting services, legal fees and expenses, printing, fees and expenses of any custodian or trustee having custody of Fund assets, postage, charges and expenses of dividend disbursing agents, registrars and stock transfer agents, including the cost of keeping all necessary shareholder records and accounts and handling any problems related thereto, and certain other costs related to the aforementioned items. The Fund also pays the Adviser for administrative services provided to the Fund by the Adviser that the Fund is obligated to pay under the Investment Advisory Agreement, subject to certain payment guidelines adopted by unanimous resolution of the Board of Directors. A description of the payment guidelines is included in the Fund's Statement of Additional Information ("SAI") under "The Fund's Investment Adviser."

Mr. David O. Nicholas is President, a Director and Lead Portfolio Manager of the Fund and is primarily responsible for the day-to-day management of the Fund's portfolio. He has been Portfolio Manager of the portfolio since March 1993. Mr. Nicholas is President, Chief Executive Officer, Chief Investment Officer and a Director of the Adviser, and has been employed by the Adviser since 1986. Mr. Nicholas also serves as Portfolio Manager or Lead Portfolio Manager to other funds managed by the Adviser, and is a Chartered Financial Analyst. Mr. Ryan P. Bushman, Senior Vice President of the Fund, has been Co-Portfolio Manager of the Fund since February 2021. Mr. Bushman joined Nicholas as a senior research analyst in October 2020. Mr. Bushman is a Chartered Financial Analyst.

The Fund's SAI provides additional information about the Portfolio Managers' compensation, other accounts managed by the Portfolio Managers, and the Portfolio Managers' ownership of securities in the Fund.

David O. Nicholas is a controlling person of the Adviser through his ownership of 60% of the outstanding voting securities of the Adviser.

PRICING OF FUND SHARES

The Fund's price per share is the net asset value ("NAV") of the Fund. The NAV of the Fund is determined by dividing the total value in U.S. dollars of the Fund's total net assets by the total number of shares outstanding at that time. Net assets of the Fund are determined by deducting the liabilities of the Fund from the total assets of the Fund. Securities of the Fund are valued at market value, or if a market quotation is not readily available, their fair value is determined in good faith using procedures adopted by the Board of Directors. As an example, a market quotation may not be readily available if the trading of a security is halted by its primary exchange and does not resume before the markets close or the primary exchange reports technical difficulties. If a security is valued using fair value pricing, the Fund's value for that security is likely to be different than the last quoted market value. The NAV is determined as of the close of regular trading on the New York Stock Exchange ("NYSE") (usually 4:00 p.m., Eastern Time) on each day the NYSE is open. Therefore, shares of the Fund are not priced on days when the NYSE is closed, which generally is on weekends and national holidays in the U.S.A. For a list of holidays observed by the NYSE, please contact the Fund or see the Fund's SAI.

Shareholder purchase, redemption and exchange orders are processed using the NAV next calculated after receipt of such request in proper order by the Fund (or an Authorized Agent of the Fund). In order to receive a day's price, your request must be received in proper order by the close of regular trading on the NYSE. If you request to purchase, redeem or exchange your shares after the NYSE has closed or on a day the NYSE is closed, the NAV will be determined as of the close of the next day the NYSE is open for trading.

Other Information about Purchasing Fund Shares

Your application to purchase Fund shares must be in proper order to be accepted may only be accepted by the Fund or an Authorized Agent of the Fund and is not binding until accepted. Once your purchase order has been accepted, you may not cancel or revoke it. All purchase orders must be accompanied by payment in U.S. funds. Purchase of shares will be made in full and fractional shares computed to three decimal places.

Your check should be drawn on a U.S. bank, savings and loan or credit union. Checks are accepted subject to collection at full face value in U.S. funds. To prevent check fraud, third-party checks, Treasury checks, credit card checks, traveler's checks, starter checks and money orders will not be accepted. The Fund is unable to accept post-dated checks or any conditional order or payment. The transfer agent will charge a \$25 fee against your account, in addition to any loss sustained by the Fund, if any payment check is returned to the transfer agent or your Automated Clearing House ("ACH") transfer does not clear. The Fund will not accept purchase or exchange orders under circumstances or in amounts considered disadvantageous for shareholders.

Class I has a minimum initial investment of \$100,000. The following are exceptions to this required minimum amount:

- (1) Existing shareholders of any of the Nicholas Funds as of March 1, 2005;
- (2) Directors of the Nicholas Funds or Nicholas Company, Inc., the Adviser to the funds, and their family members;
- (3) Employees of the Nicholas Company, Inc. and their family members;
- (4) Related parties of the Nicholas Funds or Nicholas Company, Inc.; and
- (5) An advisor to a group of investors that makes a cumulative initial purchase on behalf of their clients in an amount of \$100,000 or more.

Anyone who is eligible to purchase Class I shares of the Fund under any of the various provisions set forth above must include a written statement with the initial purchase order and application explaining which exception applies.

Under the Automatic Investment Plan, you may purchase Fund shares automatically at regular intervals by authorizing the Fund to withdraw \$50 or more from your personal bank account. If your bank rejects your payment, the Fund's transfer agent will charge a \$25 fee to your account. To participate in this plan, you must complete the "Automatic Investment Plan" section of the application and attach a voided check or contact the Fund at 800-544-6547 for additional information. Your financial institution must be a member of the Automated Clearing House (ACH) network. Any request to change or terminate your Automatic Investment Plan should be submitted to the transfer agent 5 days prior to the effective date.

In compliance with the USA Patriot Act, please note that the transfer agent, U.S. Bancorp Fund Services, LLC ("U.S. Bancorp"), will verify certain information on your Account Application as part of the Fund's Anti-Money Laundering Program. As requested on the Account Application, you must supply your full name, date of birth, social security number and permanent street address. Mailing addresses containing a P.O. Box alone will not be accepted as a permanent street address. Please contact U.S. Bancorp (800-544-6547 or 414-276-0535) if you need additional assistance when completing your application. If you are opening the account in the name of a legal entity (e.g., partnership, limited liability company, business trust, corporation, etc.), you must also supply the identity of the beneficial owners. Shares of the Fund have not been registered for sale outside of the United States. The Fund generally does not sell shares to investors residing outside of the United States, even if they are U.S. citizens or lawful permanent residents, except to investors with U.S. military APO or FPO addresses.

If we do not have a reasonable belief of the identity of a customer, the account will be rejected or the customer will not be allowed to perform a transaction on the account until such information is received. In the rare event that the Fund's transfer agent is unable to verify your identity, the Fund reserves the right to redeem your account at the current day's net asset value.

You should be aware that deposit of purchase and exchange requests in the mail or with other independent delivery services does not constitute receipt by U.S. Bancorp or the Fund.

Only bank accounts held at domestic financial institutions that are ACH members may be used for telephone or internet transactions. The ability to perform internet and telephone transactions will become effective approximately 7 business days after an application including bank instructions or a change of account options request to add or change bank instructions is received.

During periods of substantial economic or market changes or due to technical difficulties, you may have difficulty making internet or telephone purchases and exchanges. If you are unable to perform your transaction via the internet or by telephone, you may purchase and exchange Fund shares by delivering the request in person or by mail.

Wired funds must be received prior to 4:00 p.m. Eastern Time to be eligible for same day pricing. The Fund and its transfer agent are not responsible for the consequences of delays resulting from the banking or Federal Reserve wire system, or from incomplete wiring instructions. If you are making an initial investment by wire, you must first complete and return to the appropriate address an Account Application.

Due to fixed expenses incurred by the Fund in maintaining individual accounts, the Fund reserves the right to redeem accounts that fall below the minimum investment required due to shareholder redemption (but not solely due to a decrease in net asset value of the Fund). In order to exercise this right, the Fund will give advance written notice of at least 30 days to the accounts below such minimum. The Fund’s transfer agent may charge an activity fee for certain requests, including but not limited to, requesting stop payment on a redemption check and overnight delivery of redemption proceeds. Your mutual fund account may be transferred to your state of residence if no activity occurs within your account during the inactivity period specified in your state’s abandoned property laws.

It is important that the Funds maintain a correct address for each investor. An incorrect address may cause an investor’s account statements and other mailings to be returned to the Funds. Based upon statutory requirements for returned mail, the Funds will attempt to locate the investor or rightful owner of the account. If the Funds are unable to locate the investor, then they will determine whether the investor’s account can legally be considered abandoned. The Funds are legally obligated to escheat (or transfer) abandoned property to the appropriate state’s unclaimed property administrator in accordance with statutory requirements. The investor’s last known address of record determines which state has jurisdiction. Please proactively contact the Fund at 1-800-544-6547 at least annually to ensure your account remains in active status. Investors who are residents of the state of Texas may designate a representative to receive legislatively required unclaimed property due diligence notifications. Please contact the transfer agent to complete a Texas Designation of Representative form.

Share ownership is electronically recorded. Accordingly, the Fund will not issue certificates representing Fund shares. The Fund’s transfer agent will credit the shareholder’s account with the number of shares purchased. Written confirmations are issued for all purchases of Fund shares.

REDEMPTION AND EXCHANGE OF FUND SHARES

BY MAIL Regular Mail: Nicholas Funds c/o U.S. Bancorp Global Fund Services P.O. Box 701 Milwaukee, Wisconsin 53201-0701 Overnight Mail: Nicholas Funds c/o U.S. Bancorp Global Fund Services Third Floor 615 East Michigan Street Milwaukee, Wisconsin 53202	Written redemption and exchange requests must include the name of the Fund, the account number(s), the amount of money or number of shares being redeemed or exchanged, the name(s) on the account(s) and the signature(s) of each registered account holder. If an account registration is individual, joint tenants, sole proprietorship, custodial (Uniform Transfer to Minors Act), or general partners, the written request must be signed exactly as the account is registered. If the account is owned jointly, all owners must sign.

Other Information about Redeeming and Exchanging Fund Shares

All redemptions and exchanges will be processed immediately upon receipt and written confirmations will be issued for all redemptions and exchanges of Fund shares. Once your redemption or exchange order has been accepted, you may not cancel or revoke it.

The Fund ordinarily pays for redeemed shares within seven days after receipt of a request in proper order, except as provided by the rules of the Securities and Exchange Commission. Redemption payments are normally funded by cash held by the Fund, but in periods of unusually high redemptions, the Fund may be required to sell securities. Although not anticipated, it is possible that conditions may arise in the future which would, in the opinion of the Fund’s Adviser or Board of Directors, make it undesirable for the Fund to pay for all redemptions in cash. In such cases, the Board may authorize payment to be made in portfolio securities or other property of the Fund. Redemption proceeds to be wired normally will be wired on the next business day after a NAV is determined. The Fund reserves the right to hold payment up to 15 days or until notified that investments made by check or electronic funds transfer through the ACH network have been collected, at which time payment will be made. This delay will not apply if you purchased your shares via wire payment.

You may instruct U.S. Bancorp to mail the proceeds to the address of record or to directly mail the proceeds to a pre-authorized bank account. Proceeds also may be wired to a pre-authorized account at a commercial bank in the United States. The transfer agent charges a \$15 wire redemption fee. In addition, proceeds also may be electronically transferred through the ACH to a pre-authorized account at no cost. Please contact the Fund for the appropriate form if you are interested in setting your account up with wiring instructions or authorizing electronic transfers.

You can redeem and exchange your shares by internet or telephone unless you decline this option in writing.

During periods of substantial economic or market changes or due to technical difficulties, you may have difficulty making internet or telephone redemptions and exchanges. If you are unable to perform your transactions via the internet or by telephone, you may redeem or exchange your shares by delivering the request in person or by mail.

Procedures for redeeming and exchanging Fund shares by internet or telephone may be modified or terminated at any time by the Fund or its transfer agent. The exchange privilege may be terminated or modified only upon 60 days advance notice to shareholders. Neither the Fund nor its transfer agent will be liable for following instructions communicated by the internet or telephone which they reasonably believe to be genuine. The Fund and its transfer agent will employ reasonable procedures to confirm that instructions received by telephone are genuine, and if they do not, they may be liable for losses due to unauthorized or fraudulent instructions. If an account has more than one owner or authorized person, the Fund will accept telephone instructions from any one owner or authorized person. Once you place a telephone transaction request, it cannot be canceled or modified after the regular close of trading on the NYSE (generally, 4:00 p.m., Eastern Time).

The Fund will return and not process requests that contain restrictions as to the time or date redemptions and exchanges are to be effected.

The Fund may require additional supporting documents for redemptions and exchanges made by corporations, executors, administrators, trustees and guardians. Specifically, if the account is registered in the name of a corporation or association, the request must be accompanied by a corporate resolution signed by the authorized person(s). A redemption or exchange request for accounts registered in the name of a legal trust must have a copy of the title and signature page of the trust agreement on file or must be accompanied by the trust agreement and signed by the trustee(s).

For federal income tax purposes, redemptions and exchanges generally are treated as a sale of the shares being redeemed or exchanged. You may recognize a capital gain or loss equal to the difference between the redemption or exchange price and your cost basis for the shares being redeemed or exchanged. An exchange between the funds involving master retirement plans and IRA accounts generally is not a taxable transaction for federal tax purposes. See "Dividends, Distributions and Federal Tax Status" for further information. If you have an individual retirement account ("IRA") or other retirement plan, you must indicate on your redemption requests whether or not to withhold federal income tax. Unless a redemption request specifies not to have federal income tax withheld, the transaction will be subject to withholding. Shares held in an IRA or other retirement accounts may be redeemed by telephone. Investors will be asked whether or not to withhold taxes from any distribution. Please consult your current IRA Disclosure Statement for any applicable fees. IRA redemptions may not be conducted using the internet.

Nicholas Company, Inc. also is the Adviser to Nicholas II, Inc., which offers both Class I and Class N shares, as well as Nicholas Equity Income Fund, Inc. and Nicholas Fund, Inc., all of which have investment objectives as discussed in separate prospectuses. You may exchange your shares of the Fund for shares of these other available Nicholas funds or the Fidelity Investments Money Market Funds: Government Portfolio. The Fidelity Investments Money Market Funds: Government Portfolio is a money market mutual fund available for you to respond to changes in your goals or market conditions and is not affiliated with the Fund or the Adviser.

If you choose to exercise the exchange privilege, your shares will be exchanged at their next determined NAV. Exchanges can only occur between identically registered accounts. Minimum investment requirements must be met.

If you are interested in exercising the exchange privilege, you must obtain the appropriate prospectus from Nicholas Company, Inc.

Signature guarantees will generally be accepted from domestic banks, brokers, dealers, credit unions, national securities exchanges, registered securities associations, clearing agencies and savings associations, as well as from participants in the New York Stock Exchange Medallion Signature Program and the Securities Transfer Agents Medallion Program ("STAMP"). A notary public is not an acceptable signature guarantor.

A signature guarantee, from either a Medallion program member or a non-Medallion program member, is required to redeem shares in the following situations:

- If ownership is being changed on your account;
- When redemption proceeds are payable or sent to any person, address or bank account not on record;
- When a redemption request is received and a change of address has occurred within the last 15 calendar days;
- For all redemptions in excess of \$100,000 from any shareholder account.

The Fund may waive any of the above requirements in certain instances. In addition to the situations described above, the Fund(s) and /or the Transfer Agent reserve the right to require a signature guarantee in other instances based on the circumstances relative to the particular situation.

Non-financial transactions, including establishing or modifying certain services on an account, may require a signature guarantee, signature verification from a Signature Validation Program member, or other acceptable form of authentication from a financial institution source.

If you are uncertain about what documents or instructions are necessary in order to redeem and exchange shares, please write or call U.S. Bancorp (800-544-6547 or 414-276-0535) prior to submitting a request. A redemption or exchange request will not become effective until all documents are received in proper order.

USE OF A PROCESSING INTERMEDIARY TO PURCHASE AND REDEEM FUND SHARES

You can purchase and redeem shares of the Fund through certain broker-dealers, financial institutions and other service providers ("Processing Intermediaries"). Certain Processing Intermediaries are, in turn, authorized to designate other intermediaries to accept purchase and redemption orders on the Fund's behalf. If you invest in the Fund through a Processing Intermediary, the Processing Intermediary rather than you may be the shareholder of record. Processing Intermediaries may use procedures and impose restrictions in addition to or different from those applicable to shareholders who invest in the Fund directly. You should read the program materials provided by the Processing Intermediary in conjunction with this Prospectus before you invest in the Fund this way.

Processing Intermediaries may charge fees or other charges for the services they provide to their customers. Such charges vary among Processing Intermediaries, but in all cases will be retained by the Processing Intermediary and not remitted to the Fund or the Adviser.

The Fund also may enter into an arrangement with some Processing Intermediaries which authorizes them to process purchase and redemption orders on behalf of the Fund on an expedited basis (an "Authorized Agent"). Receipt of a purchase or redemption order by an Authorized Agent will be deemed to be received by the Fund for purposes of determining the NAV of Fund shares to be purchased or redeemed. If you place a purchase order through an Authorized Agent, you will pay the Fund's NAV next computed after the receipt by the Authorized Agent of such purchase order, plus any applicable transaction charges imposed by the Authorized Agent. For redemption orders placed through an Authorized Agent, you will receive redemption proceeds which reflect the NAV next computed after the receipt by the Authorized Agent of the redemption order, less any redemption fees imposed by the Authorized Agent.

Of course, you do not have to use the services of a Processing Intermediary, or pay the fees that may be charged for such services. You can invest directly with the Fund without a sales charge. If you hold Fund shares through a Processing Intermediary, you must redeem your shares through such Processing Intermediary. In such event, you should contact the Processing Intermediary for instructions on how to redeem. Otherwise, if you originally invested directly with the Fund, you can redeem Fund shares through the Fund without a redemption charge.

FREQUENT PURCHASES AND REDEMPTIONS OF FUND SHARES

Frequent purchases and sales of fund shares may affect shareholders in various ways. Depending on various factors, including but not limited to, the size of the fund, the amount of assets the portfolio manager typically maintains in cash or cash equivalents, and the dollar amount, number and frequency of trades, short-term or excessive trading may disrupt the efficient management of the fund's portfolio, may impact fund performance and may increase brokerage, administrative and other expenses. The Fund reserves the right to reject any purchase request, including exchange requests from other Nicholas Funds, if the Fund regards the request as disruptive or if the Fund deems the request to have the potential to be disruptive. However, the Fund cannot ensure that its efforts will eliminate all risks of market timing.

Certain types of funds are particularly susceptible to market timing activity, including international and small-cap funds. This is due to the relative illiquidity and volatility of their holdings. The Fund primarily invests in the securities of domestic corporations with small and medium capitalizations. To the extent that the Fund invests in small capitalizations entities in amounts that are material, the Fund may be at greater risk for attempted market timing activity than funds that do not invest in the securities of corporations with small capitalizations.

The Fund discourages disruptive trading in Fund shares for abusive purposes in accordance with the policies and procedures adopted by the Fund's Board of Directors, which are reasonably designed to detect and discourage disruptive trading. These policies and procedures apply to any account, whether an individual account or an account referred to as an "omnibus account" where a financial intermediary holds Fund shares for a number of its customers in one account. Because there is currently no generally applied standard in the marketplace as to what level of trading activity is abusive, the Board of Directors elected not to adopt rigid rules specifying what activity is abusive or how suspected abusive activity will be addressed. In adopting the Fund's policies and procedures, the Board of Directors determined that it would be in the best interests of shareholders to provide flexibility in dealing with such activities.

Under the Fund's policies and procedures, the Fund currently uses various methods to deter disruptive activity in both individual and omnibus accounts, including but not limited to, selective monitoring of trading activity and undertaking preventive action designed to discourage and preclude disruptive traders from entering the Fund. We may consider trading in the Fund's shares to be disruptive if we detect one or more of the following in an account:

- Shares traded out of the Fund within a short period of time after the shares were purchased;
- Two or more purchases and redemptions are made within a short period of time;
- A series of transactions within the Fund that is indicative of a timing pattern or strategy; or
- One or more large trades relative to the Fund's overall size.

The Fund reserves the right to take responsive action to trading activity deemed disruptive by the Fund's compliance committee, even though such trades may not fall into one or more of these categories.

In connection with our review of suspected disruptive trading, we may, at our option, contact the individual or entity or the financial intermediary believed to be engaged in or to have facilitated such trading. If we reasonably believe that the trading was disruptive, we will ask that investor or financial intermediary to refrain from such activity in the future. In addition, the investor or financial intermediary may be restricted from future purchases into the Fund and may also be restricted from future purchases of shares offered by any of the funds in the Nicholas fund complex.

In determining what action to take with respect to suspected disruptive trading activity, the Fund will act in a manner that is consistent with the best interests of the Fund's shareholders by making independent assessments of instances or patterns of potentially improper conduct in a manner consistent with the policies and procedures approved by the Board of Directors.

While the Fund does not accommodate market timing activities engaged in for abusive purposes, the methods used by the Fund to deter and detect market timing activities involve judgments that are inherently subjective and our response to potentially disruptive trading activity may not be uniform. This means that the Fund may not take remedial action against investors detected engaging in a disruptive trade for reasons believed by the Fund to be legitimate and non-abusive. Examples of legitimate trading activities include, but may not be limited to, asset allocation, dollar cost averaging, emergency liquidations, estate planning measures or similar activities that may nonetheless arguably result in disruptive trading of Fund shares.

There is a risk that the Fund's policies and procedures will prove ineffective in whole or in part to detect or prevent abusive market timing activities. For example, it may be difficult for the Fund to identify such activities engaged in by investors through the use of omnibus accounts administered by financial intermediaries who transmit purchase, exchange, or redemption orders to the Fund on behalf of their customers who are the beneficial owners. Short-term trading by these investors is likely to go undetected by the Fund.

If the Fund is unable to detect and deter trading abuses, the Fund's performance, and its long-term shareholders, may be harmed. In addition, because the Fund has not adopted specific limitations or restrictions on the trading of Fund shares, shareholders may be harmed by the extra costs and portfolio management inefficiencies that result from excessive or disruptive trading of Fund shares, even when the trading is not for abusive purposes.

TRANSFER OF FUND SHARES

You may transfer Fund shares in instances such as the death of a shareholder, change of account registration, change of account ownership and in cases where shares of the Fund are transferred as a gift. You can obtain documents and instructions necessary to transfer Fund shares by writing or calling U.S. Bancorp (800-544-6547 or 414-276-0535) prior to submitting any transfer requests.

DISTRIBUTION OF FUND SHARES

Quasar Distributors, LLC (the “Distributor”), 111 East Kilbourn Avenue, Suite 2200, Milwaukee, Wisconsin, 53202, serves as the distributor and principal underwriter of the Funds’ shares. The Distributor is a registered broker-dealer and member of the Financial Industry Regulatory Authority (“FINRA”).

DIVIDENDS, DISTRIBUTIONS AND FEDERAL TAX STATUS

The Fund intends to qualify annually as a “regulated investment company” under the Internal Revenue Code of 1986 and intends to take all other action required to ensure that little or no federal income or excise taxes will be payable by the Fund. As a result, the Fund generally will seek to distribute to its shareholders substantially all of its net investment income and net realized capital gain.

For federal income tax purposes, dividends and distributions by the Fund, whether received in cash or invested in additional shares of the Fund, will be taxable to the Fund’s shareholders, except those shareholders that are not subject to tax on their income. Net realized long-term gains are paid to shareholders as capital gain distributions. Income distributed from the Fund’s net investment income and net realized short-term gains are paid to shareholders as ordinary income dividends. Distributions generally will be made annually in December. Distributions may be taxable at different rates depending on the length of time the Fund holds a security. The Fund will provide information to shareholders concerning the character and federal tax treatment of all dividends and distributions. If you elect to receive distributions and/or capital gains paid in cash, and the U.S. Postal Service cannot deliver the check, or if a check remains outstanding for six months, the Fund reserves the right to reinvest the distribution check in your account, at the Fund’s current net asset value, and to reinvest all subsequent distributions.

At the time of purchase of Fund shares, the Fund may have undistributed income or capital gains included in the computation of the NAV. Therefore, a dividend or capital gain distribution received shortly after such purchase by a shareholder may be taxable to the shareholder, although it is, in whole or in part, a return of capital and may have the effect of reducing the NAV.

Under federal law, some shareholders may be subject to “backup withholding” on reportable dividends, capital gain distributions (if any) and redemption payments. Generally, shareholders subject to backup withholding will be those (i) who, to the Fund’s knowledge, have furnished an incorrect taxpayer identification number, or (ii) who have failed to declare or underreported certain income on their federal returns. When establishing an account, you must certify under penalties of perjury that the taxpayer identification number you give to the Fund is correct and that you are not subject to backup withholding.

The foregoing tax discussion relates to federal income taxes only and is not intended to be a complete discussion of all federal tax consequences. You should consult with a tax adviser concerning the federal, state and local tax aspects of an investment in the Fund.

DIVIDEND AND DISTRIBUTION REINVESTMENT PLAN

Unless you elect to accept cash in lieu of shares, all dividends and capital gain distributions are automatically reinvested in additional shares of the Fund through the Dividend and Distribution Reinvestment Plan (the “Reinvestment Plan”). You may elect to accept cash on an application to purchase shares, by telephone or by separate written notification. All reinvestments are at the NAV in effect on the dividend or distribution date and are credited to the shareholder’s account. U.S. Bancorp will notify you of the number of shares purchased and the price following each reinvestment period.

You may withdraw from or thereafter elect to participate in the Reinvestment Plan at any time by giving written or telephonic notice to U.S. Bancorp. The Fund's transfer agent must receive an election prior to the dividend record date of any particular distribution for the election to be effective for that distribution. If an election to withdraw from or participate in the Reinvestment Plan is received between a dividend record date and payment date, it shall become effective on the day following the payment date. The Fund may modify or terminate the Reinvestment Plan at any time on 30 days written notice to participants.

SYSTEMATIC WITHDRAWAL PLAN

If you own \$10,000 or more of Fund shares at the current market value, you may open a Systematic Withdrawal Plan (the "Plan") and receive monthly, quarterly, semiannual or annual payments for any designated amount. You may elect to have a check sent to you at your address of record, or proceeds can be sent directly to your predesignated bank account via electronic funds transfer through the Automated Clearing House network. When you participate in the Plan all income and capital gain dividends should be reinvested in shares of the Fund. U.S. Bancorp reinvests all income and capital gain dividends in shares of the Fund. You may add shares to, withdraw shares from, or terminate the Plan, at any time by contacting the Fund's transfer agent at least five days prior to the next scheduled withdrawal. Each withdrawal may be a taxable event to you. Liquidation of shares in excess of distributions may deplete or possibly use up the initial investment, particularly in the event of a market decline, and withdrawals cannot be considered a yield or income on the investment. In addition to termination of the Plan by the Fund or shareholders, the Fund's transfer agent may terminate the Plan upon written notice mailed to the shareholders. Please contact Nicholas Company, Inc. for copies of the Plan documents.

TAX DEFERRED ACCOUNTS

If you are eligible, you may set up one or more tax deferred accounts. A contribution to certain of these plans also may be tax deductible. The Fund offers the following tax deferred accounts: traditional, Roth, SEP and SIMPLE IRAs; a Master Retirement Plan for self-employed individuals and partnerships; and Coverdell Savings Accounts for qualified education expenses for children under 18. A description of applicable service fees and application forms are available upon request from the Fund. These documents also contain a Disclosure Statement, which the IRS requires to be furnished to individuals who are considering adopting these plans. It is important that you obtain up-to-date information from the Fund before opening a tax deferred account. Investors should consult with their tax adviser or legal counsel before investing in a tax deferred account.
